Dear Gael

I am writing to endorse our partnership with MaAfrika Tikkun (MAT). Australians have a long and well deserved reputation for caring and helping those in need. We do this within our local communities as well as offering a helping hand to those around the globe.

At O'Brien®, our Giving Back Community Initiatives Program gives our team members the opportunity to support MAT. Additionally, our global parent company Belron® offers significant support to MAT.

We formed our Giving Back program in mid 2008 and since then we have actively supported your worthy organisation raising tens of thousands of dollars from salary sacrificing, participation in the Sydney Running Festival together with our team members offering additional donations to reflect the passion our people have for supporting the incredible value MAT creates for those who truly deserve a helping hand.

During 2009, O'Brien® agreed to dollar match funds raised by our team members. This initiative demonstrates our belief that the work of MaAfrika Tikkun is significant in offering resources, training and sustainable support to South Africa's poorest communities.

The O'Brien® team are pleased to support MAT and we look forward to continuing our partnership with you into the future.

Best regards
